

THE NORTHERN TRIBUNE

AN INDEPENDENT WEEKLY NEWSPAPER

Published every Thursday at Grande Prairie, Alberta. The Tribune is a thoroughly "home" paper, with news field with fairness to all sections and parties; also to aid in the development of the Peace River Country and help make known this "Northern" paper's many advantages as a household. All news is printed without intentional distortion of fact. The opinions are expressed only in the editorial columns.

Letters for publication are welcomed. A per name may be used, though correspondents must also sign their proper names, not necessarily for publication, but as evidence of good faith. In publishing a communication, The Tribune does not imply agreement with any opinions contained therein.

THURSDAY, OCTOBER 26, 1933

MADE IN ALBERTA WEEK

The attention of Tribune readers is drawn to the fact that the Peace River Country, November 6 to 10, inclusive, has been set aside for firms in Grande Prairie who are in a position to supply and display Alberta-made goods.

The idea, which is sponsored by the Board of Trade, has been met with response and the various firms have agreed to display such goods in their windows.

What is really wrong with Alberta is that the province has no home markets for its farm products, with the result that such products have to find a market on the outside, which means greater freight rates and less money to the producers.

If products which could be manufactured in the province were made here, it would go a long way toward solving the unemployed situation, and at the same time create real purchasing power.

There is an old Scotch adage which says: "The Lord made the world to help themselves." Whether Alberta is to remain a mere agricultural province is up to the people of Alberta. If plans carry a most encouraging result will be made in Grande Prairie on the date mentioned above.

NO HIGHWAY REDRESS IS IN SIGHT

D. W. Patterson, president of the Grande Prairie Board of Trade, is in receipt of a letter from the minister of public works, L. O. McPherson, acknowledging receipt of a letter from the Board of Trade, in which was enclosed a resolution passed by that body asking that the Peace River Highway be gravelled.

The minister holds no immediate hope that the request will be granted, pointing out that there is no immediate assistance available from Dominion authorities and that no appropriation had been made by the legislature. The letter further states that the matter is shelved for some time to come.

It seems strange that money can be found for travelling roads on the outside, including the highway in Trade Park, and not a dollar can be found to make the Peace River Highway passable.

This is one of the many powerful arguments in favor of an extra representative for this country, to ensure that the influence of other parts of the highway.

In using for the graveling of the highway, especially along the bad portions, the various authorities in Trade Park, and not a dollar can be found to make the Peace River Highway passable.

DEPLORABLE CONDITION OF HIGHWAY

Related visitors to the country tell a sorry story of the condition of the highway along certain portions of the Peace River, especially in the region of Peace Lake.

Many cars were put out of commission and others had to be left, the passengers taking the drive for the balance of the way. This is expensive travelling.

Thousands of dollars have been spent on this highway, but it has never been finished.

In some other parts of the province, where the roads are gravelled, even in wet weather people cannot get in or out of this country except by train.

What is generally known as the Peace River country has some 50,000 inhabitants, who have come to this country to make their homes. These 50,000 people have been neglected.

The action of the various Boards of Trade through this country is urging that this highway be made passable, it is certainly justifiable.

Gravel can be gotten out in winter as well as in summer. This would give employment to people, who are sorely needed.

There should be no let up in agitation until the bad spots at least are fixed up.

While the Sturgeon Lake cut-off is not classed as a highway, in reality it is a highway, as it is the only route into and out of the Peace River area of the Peace River country. It is a route, along which there are spots of bad weather which are also impassable.

With no idea of discouraging the agitation for the building of a highway, we would like to see how many people in the Peace River country, where there are not one hundred pounds of flour in their homes. We venture to say that the number would run into the thousands.

WHEAT SURPLUS
On every hand we hear people talking about wheat surpluses.

We would like to see how many people in the Peace River country, where there are not one hundred pounds of flour in their homes. We venture to say that the number would run into the thousands.

thousands—and yet we talk of a surplus of wheat!

We would like to know how many families in the whole of Canada have a surplus of flour in their homes. Truly not many—and we talk of a surplus of wheat!

What is the use of knowing how many wheat people there are in the world, unless on a poor grain market, it is worth a dollar a bushel. Millions! And yet we grate about a surplus of wheat!

What is the use of knowing how many wheat people there are in the world, unless on a poor grain market, it is worth a dollar a bushel. Millions! And yet we grate about a surplus of wheat!

What is the use of knowing how many wheat people there are in the world, unless on a poor grain market, it is worth a dollar a bushel. Millions! And yet we grate about a surplus of wheat!

US and VIEWS

SEA-GOING BUTTERFLIES

The manner in which moths, butter-

over to England from its native America. This was the purser's explanation: "When we leave Norfolk, in the autumn there are always a lot of these butterflies flying about the potato locker, which is on deck and some of them get shut in and die on such nourishment as they can extract from the potatoes. When they give in deck in England they escape. Last summer we had two all the way but that never left the ship until we arrived at Tilbury, and I saw them away there."

provision of the Live Stock and Poultry Products Act respecting the grading and marking of eggs comes to prominence. The refusal of access to egg inspectors to records and storage egg holdings constitutes a breach of Clause 10, which says: "Any person charged with the enforcement of these regulations may, at any time, for the purpose of carrying into effect any of these regulations, enter any place or conveyance to inspect, or, for the purpose of examination, to detain, any thing; and these regulations may require to be produced for inspection, or for the purpose of obtaining copies thereof or extracts

MADE IN ALBERTA WEEK NOVEMBER 6TH TO 10TH

Grande Prairie Board of Trade Sponsors Idea To Stimulate Alta. Production

In September last Howard Stutchbury, trade commissioner for Alberta, and A. C. McKay, secretary of the Retail Merchants Association of the province, addressed meetings at Grande Prairie and throughout the district, stressing the value of buying goods made in Alberta wherever possible.

The speakers asked the Board of Trade to set apart a week for the boosting of Alberta-made products.

At a recent meeting of the Board of Trade it was decided to sponsor the idea and November 6th to 10th was set aside as the week to display Alberta-made goods.

While certain lines of business do not carry these products for the reason that their particular lines are not

made in Alberta, those firms who have such goods are responding enthusiastically and have pledged themselves to do all in their power to boost home industries.

One of the great drawbacks in the West—and it includes Alberta—is due to the lack of manufacturing concerns and also due to the fact that too often provincial concerns have been overlooked.

The public is reminded that every dollar spent in the province circulates in the home; creates greater purchasing power; and tends to itself the province back to normal, and helps to gather up the slack of unemployment.

Mr. Stutchbury stated that if the importance of developing manu-

factures within the province was fully grasped, it would mean that millions of dollars would be earned and spent in the province which now go to the outside.

The trade commissioner further observed: "What is wrong is that the people have an inferiority complex and imagine that products made on the outside must be better than those made at home. This is a fallacy."

Continuing, he said: "But if the industries which are possible in the province were developed, it would be an extra people. And this can be accomplished if those industries are given a fair break."

Mr. McKay supported the trade commissioner in his contention.

The Made in Alberta Week should result in stimulating an interest in Alberta-made goods.

The Board of Trade is to be congratulated on acting on the suggestion of the trade commissioner and the secretary of the Retail Merchants Association in giving all possible assistance to the idea.

ALONG THE WAPITI

JOHN REVIE

Genial, kindly, good-hearted and, that means no more. This whole community was shocked and saddened by the news, for his leaving us was so sudden and unexpected. In the words of Tennyson: God's finger touched him and he slept."

I first met him some 28 years ago, when he bought wheat north of me in Saskatchewan. Then our two trails crossed just before the war and again in this far country, some five or six years ago we again met. Later, on Tuesday, before his journeying on he ordered me to come to his elevator every time I was in Dinsdale and enjoy a cup of tea and an old-time chat with him. It seems that, one by one, all my old-time friends of long ago are passing.

Winter seems to be with us again. The Wapiti has closed up at the shore head just south of Grande Prairie. George is now over at the ferry with Bill Henderson, in case it freezes there and makes it necessary to pull the ferry out. Surely it will open up again and give us another month at least of fairly decent weather.

Tonight, Friday, October 27, the W. I. held their pie social. This is the first interesting event to be held in the schoolhouse this fall. All ladies are requested to bake and bring a pie, containing the small sum of 25 cents. The pies will be auctioned and the 25 cents credited on the price list. Coffee and refreshments will be served, principally pie. First-class music has been secured. The floor is in A-1 condition. Everybody welcome and everybody come.

Two weeks from this Friday, namely, the 10th of November, the night before Armistice Day, the ladies of the W. I. put on the fourth annual "Payers' Potluck Supper" to commemorate the building of the school. This is one of the best feasts and also one of the most enjoyable events of the whole winter. It will be doubly so this year, as W. D. Albrecht will give one of his lectures on "Live Stock, Furage Crops, Horticulture." W. J. Thompson, district agriculturist, will also be here. It is expected, starting sharp at 8 o'clock—and with Mr. Albrecht this means EIGHT. So everybody make preparation to be there and spread the good news. Supper 6 to 10:30. A voluntary silver collection will be taken to defray the expenses towards the children's Christmas tree.

A number of people are hoping that the W. I. will put on their winter drives again this winter, if only once a month. They were most enjoyable and for those who like the good old game of whist came as a treat; also the small sum of ten cents for a pleasant evening and lots of good cheer in the way of refreshments. Try and come up, but let the "old fogies" enjoy them, and leave out the dancing. The Community League holds its annual meeting on Saturday evening.

November 4, at 8 p.m., in the schoolhouse. At the meeting offers for the coming year will be selected and plans for winter discussed. Let there be a good turnout of members.

Don't forget the first time in the past several years, the cabin on J. Mackie's will be vacant. "Mac" is moving all his belongings into the new place up Edgar Jell's place, arranging for the keep of his horse, and is uncertain of his own plans as yet. He wishes those who have usually used his cabin on winter trips to understand that there will be stoves there but nothing else, and it will be necessary for anyone wishing to use the cabin to take supplies, cooking utensils, etc.

"Bob" Dunstan is home from thrashing and quite happy. He got in 17 days with Don Norrie's outfit. "Bob" is starting to train some pet mice. He made quite a stake thrashing, but the mice ate up his new suit.

Watt of Pipestone Store and Woods of Wembley had a very narrow escape when the latter's truck turned completely upside down on the turn coming into Wapiti with its load of supplies for the store. Beyond a severe shaking up and some minor injuries, neither party was any the worse.

Years ago, in my young days, there was a saying when anybody continually had narrow escapes from a violent end, that meant he was "about to be hung." We do not know if that applies to A. K. Watt, but he certainly would have knocked an ordinary man straight into the lap of St. Peter, but he only had the wind of his wagon smashed. Now he turns upside down in a truck, with the wheels spinning in the air, sitting serenely in the cab. And instead of having to lay flowers, he is enjoying tending to business in his store. This I do know: Next time he climbs into Edgar Jell's car when I am in it, I climb out.

There is one thing for which we have to hand it to this famous corner of ours: When it wants to rain, it surely rains; and when it wishes to snow, it does as witness this demonstration of its ability in that direction now going on. We here along the Wapiti know the reason of this snow. All of our children who had cold by term have been concentrating on it with, and also praying for it—that it would snow, so the trucks would have to stop hauling and they could start. Well, they got their wish!

ILLUSTRATED NEWS OF THE WEEK

A SPECIAL TRIBUNE FEATURE

THE BEST OF THE WEEK'S INTERESTING NEWS PICTURES

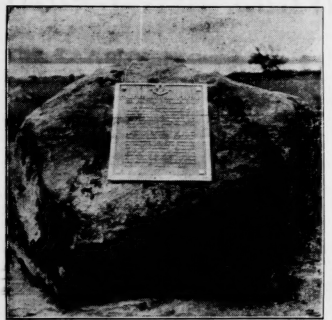

While basking at donning kilts, Judge Robert Bingham, United States Ambassador to Great Britain, nevertheless makes a concession to his Scottish host, Hugh Campbell (left), noted singer, by wearing an Inverness cape as he hunts grouse on the moor at Stracathrie, Scotland. Mrs. Bingham is at the right.

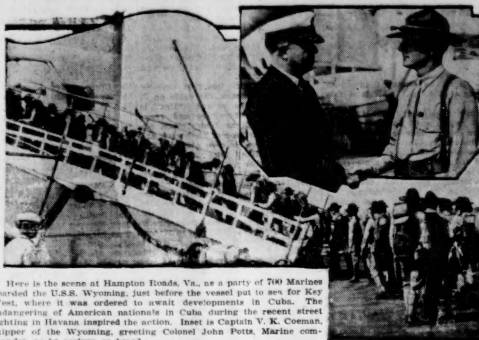

SWASTIKA'S IN THE NAVY NOW

The Nazi swastika now goes down to the sea on ships, as this photo shows. Here is a close-up of the bow of the German cruiser "Karlsruhe," showing the familiar emblem which is now borne by all ships of the German navy. The swastika is surrounded by an eagle with wings outspread, a concession to non-Imperial Germany.

UNITED EMPIRE LOYALISTS' MONUMENT UNVEILED

This picture shows the monument which was unveiled at Fredericton, New Brunswick, recently, to commemorate the arrival at Pointe Sainte Anne, now Fredericton, of a party of United Empire Loyalists of the New Jersey Volunteers and King's American Regiment, with their women and children, on October 8th, 1783. The monument consists of a boulder of New Brunswick sandstone upon which a bronze tablet is attached.

Here is the scene at Hampton Roads, Va., as a party of 200 Marines boarded the U.S.S. Wyoming, just before the vessel put to sea for Key West, where it was ordered to await developments in Cuba. The endangering of American nationals in Cuba during the recent street fighting in Havana inspired the action. Inset is Captain V. K. Coonan, skipper of the Wyoming, greeting Colonel John Potts, Marine commander, as he arrives on board.

VISITS CANADA

Lord Edlington, better known as Sir Roland Duffies, former Lord Mayor of London, has arrived in Canada for his first visit to this dominion. He will be the guest of the Governor-General and Lady Desbouchard at Ottawa.

BRITISH FLYING BOAT ARMED WITH HEAVY GUN

PELLINGSTOWE, England.—The air ministry has here harbored the first service aircraft in the world to be armed with a heavy gun firing high explosive shells. First of four flying boats being built at Pellingstow, Yorkshire, for the royal Air Force, the machine was flown here on its maiden flight. In the war and later years aeroplanes were unable to carry anything heavier than a machine gun, although heavy bombs, of course, have been standard equipment on bombers for many years.

The new machine's armament includes a gun capable of firing 15-pound shells, and three machine-guns, the whole installed on what is virtually a 17-ton flying gun platform traveling at 132 miles an hour. The long-standing problem surmounted by the builders of the new aircraft was that of providing for the recoil upon an aeroplane of the heavy gun. Intensive trials will now be given the craft, after which, with the others of the quartette, it is expected to form a squadron to be stationed at Malta.

BARTER IN NATURAL HISTORY

Barter has been winning its way into all departments of life in Great Britain as well as elsewhere and now has entered the realm of natural history. A number of months, the first of their species caught in England, have been exchanged by the museum at Hull with a natural history museum for a whale.

REPRODUCES NATURAL COLORS

Dr. Charles A. Tuzig, of Massachusetts Institute of Technology, has evolved a special process of reproducing natural colors of photographed objects on lantern slides. He has a set of slides illustrating ecology, zoology, botany and anthropology taken in all parts of the world.

IN ARMS DEADLOCK

Prince Otto von Bismarck, Germany's charge d'affaires in London, pictured as he left the British Foreign Office after he had conveyed to Sir John Simon, British Foreign Minister, Germany's rejection of the three-power disarmament proposal.

PICTURES MADE OF CLOTH

Work of Finnish Artist Resembles New Type of Oil Painting

Pictures made of pieces of cloth chosen for their colors and stuck to a flat surface are on exhibit in Montreal, the work of a Finnish artist, Siva Meri-Kallio. There are landscapes, flower pictures and even a few figure subjects. In which scraps of woven stuffs have been used to produce the effect of flesh painting. Silk, muslin and all kinds of textiles are used and a great deal of patience and skill must have been required in working them into pictures to gain some striking effects which are quite surprisingly like many of the newest types of oil painting.

PIGEON SOUGHT FIRST AID

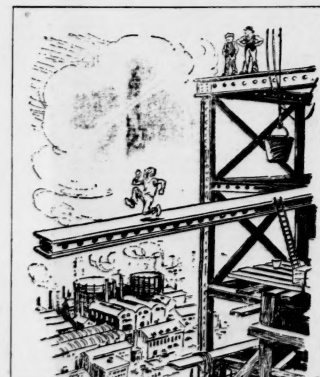

When lost in a fog a pigeon took refuge on a ship in the Bay of Biscay in an exhausted condition. The owner lost hope of recovering it, but a few days later it came back with a message tied to it which told him that it had been fed and cared for.

AIRMEN HAD COLD JOB

Owing to intense cold, the airmen photographing Mount Everest not only had to have their cameras, oxygen tanks, valves and clothing electrically heated, but even the glass in their goggles was kept warm by fine wires running through it.

Farmers of the island of Jersey are poring over prospects of the highest potato crop in thirteen years. Salary cuts in salaries of employees of West Sussex County, England, made in 1931, have just been restored.

Some folks don't even like to get up to see the dawn of a new era.

WORKMAN: "I know, it gives me the creeps to see old Bill peering from the 'dressed yards. 'E might forget an' think 'e's in for the quarter mile." —The Humourist, London.

IN ARMS DEADLOCK

Prince Otto von Bismarck, Germany's charge d'affaires in London, pictured as he left the British Foreign Office after he had conveyed to Sir John Simon, British Foreign Minister, Germany's rejection of the three-power disarmament proposal.

LINDBERGH WELCOMED TO ENGLAND

Colonel and Mrs. Charles A. Lindbergh are pictured with an official of the British Air Ministry just after they had landed from their plane at Southampton, England, following their flight across northern Europe from Russia. The famous flying couple plan to sail for the United States after a visit to the home of Mrs. Lindbergh's sister in Wales.

EUROPE UNEASY AFTER ATTEMPT ON DOLFUSS

The recent assassination attempt on Chancellor Dolfuss of Austria, in which the statesman received two minor wounds, might well have been the spark to ignite the blaze of another war in Europe, according to one European correspondent. At no time in its history has the continent been so ripe for war as at present. Chancellor Hitler, at the head of Nazi-riden Germany, hurls defiance at France with one hand, while seeking to drag Austria into the Reich with the other. France is armed to the teeth and ready for trouble. In Italy, Premier Mussolini gives moral and material support to Dolfuss in his war against German Nazi propaganda, not even peace-loving Holland is preparing to defend her frontiers against a feared German invasion.

Paragraphs of Personal Interest

Jim Brewster of Banff is here on a hunting trip.

Dr. Austin has returned from an extended visit to Winnipeg.

H. E. Stibbard of Banff is a visitor to Grande Prairie.

Jack and Howard Minchin, sons of Dan Minchin of Peace River, are visiting in town.

F. H. Norbury of Edmonton, who accompanied the art exhibit, left for Edmonton on Tuesday.

Mr. and Mrs. A. Carveth, who were visiting their two sons and daughter for some weeks, returned to the Coast on Friday.

Mr. Benny Griffith of the John Deere Company is a business visitor in Grande Prairie this week. He is from Edmonton.

A. S. Gray of Hualien, formerly with the Alberta Pacific Grain Company, has moved into town and taken rooms in the Morrison Block.

Mr. A. W. Carveth of Victoria, B.C., left for his home on Friday night's train, after visiting his sons, Hope and Pat, out Klokkan Hill way. During the summer Mr. Carveth visited his brother, Dr. Carveth, who lives near Toronto.

The following names of the girls are in town: "Dane" Chisholm, Ogilvie Flour Mills; Fred Jenkins, store equipment and supplies; Duke Kinnear, McFarland Store; Sid Morrison, Canada Branch; Bert Chadwick, General Motors.

MALE VOICE CHOIR PRACTICE

The Male Voice Choir will hold practice in the dining room of the Grande Prairie Hotel on Monday evening next. It is desired that all members be on time at 7 o'clock, so as to avoid unnecessary delay in getting started.

BOOK TALK

By J. C. B.

Rubber, A romance of the Dutch East Indies. Translated from the Dutch of Madelon H. Lulofs.

A strong, well balanced and sane writer's story of life on a rubber plantation. It reads the glamour of a tropical jungle and the life of a rubber tree, we have a moving tale of the hardships and almost insurmountable difficulties to be faced by the white planters. A tale of their struggles to remain sane and rational under conditions entirely unsuited to them; a tale of toil and sweat beneath the merciless rays of the sun.

Portraying the life of the Vermeulen, a young married couple who go out to the plantation and are swallowed up in the turmoil of jungle life, until the rubber boom brings both success and disaster in its wake. It makes a fascinating and moving book.

Comrades of the Storm. Here is another amazing and refreshing novel of romance by the author of Cappy Ricks. Indeed Peter B. Kyne introduces us to another lovable character of the Cappy Ricks type—Thomas Granger, millionaire and maker of linettes.

The story is based on the trials and adventures of Tomlinson Blaine and Carol Blainfield. They meet as down and outers, exiling as many of their

LITTLE GIRL DELIGHTS CAPITOL AUDIENCE WITH HER CLEVER DANCING

Little Alice Adams, daughter of Mr. and Mrs. Walter Adams of Grande Prairie, age five years, delighted the Capitol Theatre audience on Saturday evening last by dancing the air chameleon during the intermission between shows.

Although the little tot, who is a pupil of Mr. Heffey, had only four lessons, she demonstrated no less than ten different combinations of steps and, more than that, her time was perfect.

On request she will appear again at the Capitol theatre within the next few weeks.

GOES TO ATTEND SYNOD
Rev. E. A. Wright, Minister of Purdie Presbyterian Church, Grande Prairie, plans to leave for the night train Friday for Calgary, where he will attend the annual meeting of the Presbyterian Church of that city. At Edmonton he will conduct the anniversary service of St. Andrew's Presbyterian Church, to be held Sunday, October 29.

Wedding Bells

KITCHEN-DOCTOR

A marriage of considerable interest to Grande Prairie's younger set took place on Monday, October 23, when Miss Irene Proctor became the bride of Mr. C. A. Kitchen of Dawson Creek. "Charlie" Kitchen, the son of one of Grande Prairie's pioneer newspaper men, was a well known and highly thought of here. All wish "young Charlie" and his bride wish health and happiness.

HALL-RICH

A quiet wedding took place at the Presbyterian home, Grande Prairie, on Wednesday, October 25, when Miss Gertrude Fredericka Marlene Rich became the bride of Kenneth Charles Hall, Rev. E. A. Wright officiating. Both bride and bridegroom came from Dawson Creek, B.C.

Gleanings of Interest To the Women Folks

By THE GLEANER

ENTERTAINS REBEKAHS

On Thursday, October 19, Mrs. Walker had three tables of bridge for her regular bridge party. The tables were for Eastern members, Mrs. Crank who will be leaving for Manitoba soon, and Mrs. Walker who will first give a dainty cup and sauce, and Mrs. Griffith walked off with the consolation.

A very delicious lunch was served and a really good time was enjoyed by all.

I. O. O. F. TELEPHONE BRIDGE

The I. O. O. F. telephone bridge on Thursday, October 19, was a great success. There were seven tables of bridge, and the ladies of the United Church choir, Crown Derby cream and sugar and two cups and saucers from the nurses; a bronze oil lamp burner, cut glass center dishes, glass plates, pyrex dishes, linen and towels, and various kitchen utensils.

Groups were formed, and such little gathering of ladies composed an appropriate scene.

Afterwards a delightful lunch ended a very enjoyable evening.

ENTERTAINING VISITING LADIES

On Saturday the 21st, Mrs. Haynes and Mrs. Pavelet, of the former home, entertained the Wembley, Beaveridge, Seismith and Grande Prairie ladies at a tea table.

The first prize was won by Mrs. Holland, and the second by Mrs. E. Jackson.

A PLEASANT HOUR

On Monday, October 23, Mrs. A. R. McMillan entertained a number of her friends at a tea table.

The tea was served at 4 o'clock, and the ladies enjoyed it very much.

VISITING NOTES

Mrs. Old Homestead of Allbright arrived on Tuesday train with her little daughter, to stay with her mother, for a few days.

A PRETTY HOME WEDDING

On Wednesday, October 25, the Rev. S. J. Waterman married Miss Jeanette to Harold Kellie. The ceremony was performed at the home of the bride's parents, Mr. and Mrs. Roy Mitchell of Grande Prairie.

The bride was radiant in a blue gown with grey blue lace and stockings. Miss Louise Tame, the bridesmaid, wore brown silk.

The groom was supported by his brother, Mackenzie Kellie.

The wedding was a very pretty one, and the ceremony was very successful.

After the ceremony a lovely supper was served, after which there was a musical program. The formal dinner was served at 7 o'clock, and after the dinner the guests departed.

Many lovely presents were given to the bride, among them tea sets, cutlery, linens, etc.

DRAWS LUCKY NUMBER

Master Allen Wright was successful in drawing the lucky number at Ye. Waff's Shoppe, which entitled him to a cedar chest filled with chocolates.

These draws are made every Monday and will continue each week until Christmas.

D. M. Kennedy To Address Series Of Meetings

D. M. Kennedy, M. P., and other speakers will address meetings in Grande Prairie and surrounding communities.

Following the U. F. A. convention in Grande Prairie on October 27, D. M. Kennedy will address meetings as follows:

BUFFALO LAKES, October 28, 8 p.m.

SEISMITH, October 28, 8 p.m.

GRAND PRAIRIE, October 30, 8 p.m.

BEAVERIDGE, October 30, 8 p.m.

Following the U. F. A. convention of Grande Prairie constituency, which will be held at Father, November 3, U. F. A. meetings are being arranged throughout the constituency, at which D. M. Kennedy, I. V. Macklin and other speakers will be present.

FORMER PASTOR PREACHES GOOD SERMON AT WEMBLEY UNITED CHURCH ON SUNDAY

Rev. R. Simons of Seismith preached to a good congregation last Sunday and gave the address of the evening at the program following the anniversary supper on Monday evening.

The many friends of Rev. and Mrs. Simons were delighted to hear them and renew old acquaintances.

J. FOX MEETS WITH PAINFUL ACCIDENT WHEN AXE SLIPS

J. Fox, local agent for the Singer sewing machine, met with a painful accident on Monday last while cutting wood. The axe slipped off his shoulder and cut into his left arm. Dr. O'Brien was immediately called and fixed up the wound.

Mr. Fox is still in bed, but it is thought he will be able to be about next week.

JOINT MEETING OF MUSIC CLUB AND W. I.

A joint meeting of the Women's Music Club and the Grande Prairie Women's Institute will be held at the home of Mrs. J. E. Thomson, Thursday, November 2, at 8 p.m.

All members are requested to be present.

If you have a heck of a time in the morning

to get your car started, and on top of that have to stage a regular fight lever, do not look at it as a nuisance only—but remember that there is the time when considerable damage is done to your car.

The oil is not circulating and the gears merely cut channels into the gear cases, instead of getting lubricated.

Save Your Car by Changing to WINTER OIL and GREASE at the

Super Service Station
GRANDE PRAIRIE

The Station with the Two Red Pumps

Automatic Winter-oil and Grease will enable the driver to easily start your car on even the coldest day of winter, at the same time giving proper lubrication to all vital parts.

These oils and greases are not merely "killed" winter-oils, but numerous extensive tests have proven that they actually "deserve" to be called the best winter-oils on the market.
